

HEP-TEC-2026

HEP-TEC-2026

High Energy Physics. Theoretical
and Experimental Challenges.

Wednesday, January 14, 2026 - Thursday, January 15, 2026

Scientific Program

**Scientific Program includes the following topics
on Predictions, Observations, Challenges:**

Relativistic collisions of Hadrons. Dense and Hot matter. Phase transitions.

New physics signatures. Multi-differential production cross-sections.

Hadronization. Mass generation. Current and Near future. Challenges

HEP techniques applications
